

JURI NAIDENOV

FULL STACK ENGINEER

juri@naidenov.me

EDUCATION

National University of Science and Technology "MISIS"

Applied Mathematics

Mathematical and algorithmic support of information systems

2006 - 2011 | Moscow, Russia

SKILLS

Technical

- Full Stack Development
- System Design
- Algorithms / Data Structures
- CI/CD pipelines

Relevant Stack

- React and TypeScript
- Next.js
- Clouds (Vercel, Firebase)
- Redis, Elasticsearch
- GitHub Actions
- Docker

Familiar With

- Vue
- Svelte
- Python
- C#

Soft Skills

- Learning Ability
- Creativity and Innovation
- Adaptability
- Teamwork

EXPERIENCE

Waves Foundation | Full stack engineer

Oct 2019 - Sep 2023

- Spearheaded the launch of the developer experience on the Waves platform.
- Developed and deployed library kits for the developer community.
- Created the Waves IDE, a web-based development environment using React and TypeScript.
- Contributed to open-source governance platforms and decentralized liquidity protocols, with a range of duties including smart contract development.

Waves | Scala developer

Sep 2017 - Oct 2019

- Transitioned to blockchain technology, focusing on the blockchain node.
- Implemented consensus mechanisms and advanced the smart contract engine.
- Expanded technical expertise in Scala and blockchain technologies.

Deutsche Bank | Senior C# developer

May 2016 - Sep 2017

- Developed an order management C# WPF app for internal traders.
- Contributed to backend development with Java.
- Collaborated with a large team of developers, testers, and analysts to ensure the application's smooth functionality.

MFMSolutions | Senior C# developer

Apr 2013 - May 2016

- Led the development of a Personal Finance app, introducing features like background sync, offline access and tools for analysis of spending stats.
- Developed a C# Xamarin-based push notification library, providing a cost-effective alternative to SMS notifications.

ZUMLA | Windows Phone developer

Feb 2012 - Apr 2013

- Developed client-side features for a geo-social networking app, focusing on social network integration.
- Integrated major social networks and implemented real-time functionalities.

Wizee | C# developer

Oct 2011 - Jan 2012

- Participated in the development of an indoor navigation app and map editor tool for malls.
- Focused on backend development using C# and ASP.net MVC.

Gazprom Automate | Junior C# developer

Oct 2009 - Sep 2011

- Developed a Silverlight application for internal supervisory control.
- Worked with Oracle MII as backend system.
- Established foundational skills in the Microsoft stack.
